**3. BUSINESS.**

1. Update on the financials for the Chisholm Trail MPO.

Transportation Planner Taylor Massey presented a financial update for the Chisholm Trail MPO. Grants were 80% with the City matching 20%. The grant funding awarded as of December 2025 was \$286,096.00, with \$93,201.00 left

in available funding. The City's match remaining available was \$23,300.00, and there was \$116,501.00 remaining in total funding. There was \$2,604.00 less available than there was on the last financial update, as ODOT rolled the FY24 purchase order into FY25. ODOT Multimodal & Planning Division Planning Coordinator Sarah McElroy mentioned that the \$2,604.00 funds went back into engineering, but could still be available for the City to use in FY27 funds.

The funding sources broken down were the City's match of \$72,524.00, Grant Section 5303 of \$27,128.00, and Grant PL Funds of \$258,968.00, for a total of \$357,620.00. The ODOT purchase orders from FY24, FY25 and FY26 combined totaled approximately \$204,392.00, as of December 2025. Poe & Associates had \$172,899.00 remaining on their contract as of December 2025, but there were invoices paid to Poe & Associates in January and February that were not deducted from that total. Ms. Massey also presented slides breaking down the spending by element and budget category.

2. Discussion on the newly installed Purple Air Quality Sensor.

Transportation Planner Taylor Massey explained that the City spoke with ODOT and ODEQ about monitoring the air quality of Enid, which resulted in the City receiving Purple Air Sensors from the EPA, which was not a regulatory monitor. The sensor was placed on the City of Enid's Administration Building and collected air quality data for the City by measuring the PM2.5 which were the particulate matters in the air. The Purple Air website, PurpleAir.com, contained a map that displayed the number score and color rating, with lower scoring being better, and anything in green being good. There were grants that looked at air quality, so this could potentially put the City as eligible for air quality grants or funding in the future.

3. Update on the 2025 Metropolitan Transportation Plan (MTP).

Transportation Planner Taylor Massey explained that Poe & Associates were working on making a "What is an MPO" video to help familiarize people with the MPO. The Communications Department could place this on the City's website. The Transportation Technical Committee reviewed some survey questions, goals and objectives at their meeting the previous week that were provided by Poe & Associates. Ms. Massey mentioned the survey would be available to the public soon but the if the Policy Board members would like to make any changes to the CTMPO Public Survey, to let her know.

4. Discuss and take action on approving the 2025 Metropolitan Transportation Plan (MTP) Goals & Objectives.

Transportation Planner Taylor Massey presented the Goals and Objectives for the Chisholm Trail Metropolitan Planning Organization's (CTMPO) Metropolitan Transportation Plan (MTP). It included six goals, and was similar to what the State had for their goals. The goals were reviewed by City staff, ODOT and the Technical Committee.

Ms. Massey reviewed each goal with the Policy Board:

- Goal 1 - Safety and Security - Ensure a Safe and Secure Transportation System for All Users
- Goal 2 - Infrastructure Preservation - Preserve and Maintain CTMPO Transportation System in Good Condition
- Goal 3 - Economic Vitality - Provide an Efficient and Well-Connected Transportation System to Support a Healthy and Competitive Economy
- Goal 4 - Mobility, Accessibility and Quality of Life - Enhance Connected Transportation Options that Improve Daily Life for All Residents
- Goal 5 - Environment - Protect Natural Resources and Public Health While Supporting Transportation Choices
- Goal 6 - Resiliency and Reliability - Ensure the Reliability of Movement for People and Goods by Enhancing Resiliency and Adaptability

Moved by Ken Girty, seconded by Rob Stallings, to approve the 2025 Metropolitan Transportation Plan (MTP) Goals & Objectives.

Carried by the following votes:

Ayes: David Mason, Rob Stallings, Jason Dockins, Jonathon Cross, Sarah McElroy, Ken Girty, Demetria Dixon

5. Discuss the next steps of the MPO's efforts to meet federal and state objectives concerning transportation and transit planning, civil rights, safety and reporting.

Transportation Planner Taylor Massey noted that the 5303 funds would not be available until next fiscal year beginning July 2026. District IV Transportation Designee Sarah McElroy explained the ODOT 2026 to 2029 STIP was approved last week, but there were some corrections to be made by May. They would begin working on the FY27 budget in the spring.

#### **4. ADJOURN.**

Moved by Ken Girty, seconded by Rob Stallings, to adjourn the meeting at 11:58AM.

Carried by the following votes:

<b>Entity Name</b>	<b>Party Name</b>
CHISHOLM TRAIL METROPOLITAN PLANNING ORGANIZATION	Transportation Policy Board

You are responsible to distribute our reports to other officials who have legal oversight authority or those responsible for acting on audit findings and recommendations, and to others authorized to receive such reports.

The following apply for the audit services described above:

**Our Responsibilities**

We will conduct our audit in accordance with auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit of the financial statements to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether caused by fraud or error.

We will exercise professional judgment and maintain professional skepticism throughout the audit.

We will identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

We will obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We will also conclude, based on audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern for a reasonable period of time.

We will identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the entity's compliance with compliance requirements subject to audit and performing such other procedures as the auditor considers necessary in the circumstances.

We are required to communicate with those charged with governance, regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that the auditor identified during the audit.

## **Limitations & Fraud**

Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit that is planned and conducted in accordance with GAAS will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Our understanding of internal control is not for the purpose of expressing an opinion on the effectiveness of your internal control. However, we will communicate to you in writing any significant deficiencies or material weaknesses in internal control relevant to the audit of the financial statements that we identify during the audit.

We are available to perform additional procedures with regard to fraud detection and prevention at your request, subject to completion of our normal engagement acceptance procedures. The actual terms and fees of such an engagement would be documented in a separate contract to be signed by you and Forvis Mazars, LLP.

### Opinions

Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add an emphasis-of-matter paragraph or other-matter paragraph(s) to our auditor's report, or if necessary, decline to express an opinion or withdraw from the engagement.

If we discover conditions that may prohibit us from issuing a standard report, we will notify you. In such circumstances, further arrangements may be necessary to continue our engagement.

### Your Responsibilities

Management and, if applicable, those charged with governance acknowledge and understand their responsibility for the accuracy and completeness of all information provided and for the following:

- **Audit Support** – to provide us with:
  - Unrestricted access to persons within the entity or within components of the entity (including management, those charged with governance, and component auditors) from whom we determine it necessary to obtain audit evidence
  - Information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, including access to information relevant to disclosures
  - Information about events occurring or facts discovered subsequent to the date of the financial statements, of which management may become aware, that may affect the financial statements
  - Information about any known or suspected fraud affecting the entity involving management, employees with significant role in internal control, and others where fraud could have a material effect on the financials
  - Identification and provision of report copies of previous audits, attestation engagements, or other studies that directly relate to the objectives of the audit, including whether related recommendations have been implemented
  - Additional information that we may request for the purpose of the audit
- **Internal Control and Compliance** – for the:
  - Design, implementation, and maintenance of internal control relevant to compliance with laws and regulations and the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
  - Alignment of internal control to ensure that appropriate goals and objectives are met; that management and financial information is reliable and properly reported; and that compliance with and identification of the laws, regulations, contracts, grants, or agreements (including any federal award programs) applicable to the entity's activities is achieved
  - Remedy, through timely and appropriate steps, of fraud and noncompliance with provisions of laws, regulations, contracts, or other agreements reported by the auditor

- Establishment and maintenance of processes to track the status and address findings and recommendations of auditors
- **Accounting and Reporting** – for the:
  - Maintenance of adequate records, selection and application of accounting principles, and the safeguard of assets
  - Adjustment of the financial statements to correct material misstatements and confirmation to us in the representation letter that the effects of any uncorrected misstatements aggregated by us are immaterial, both individually and in the aggregate, to the financial statements taken as a whole
  - Preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America (or other basis if indicated in the contract)
  - Inclusion of the auditors' report in any document containing financial statements that indicates that such financial statements have been audited by us
  - Distribution of audit reports to any necessary parties

**Required  
Supplementary  
Information**

Accounting principles generally accepted in the United States of America provide for certain required supplementary information ("RSI") to accompany the basic financial statements. We understand the following RSI will not accompany the basic financial statements as required and we will include specific information in our opinion regarding the omission:

- Management's Discussion and Analysis (MD&A)

Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

**Written  
Confirmations  
Required**

As part of our audit process, we will request from management and, if applicable, those charged with governance written confirmation acknowledging certain responsibilities outlined in this contract and confirming:

- The availability of this information
- Certain representations made during the audit for all periods presented
- The effects of any uncorrected misstatements, if any, resulting from errors or fraud aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole

**Peer Review  
Report**

*Government Auditing Standards* require that we provide you with a copy of our most recent external peer review report and any letter of comment, and any subsequent peer review reports and letters of comment received during the period of the contract, upon request. If you would like a copy, please request from your engagement executive.

## Public Transportation Agency Safety Plan

In compliance with MAP-21 and the FAST Act, FTA promulgated a Public Transportation Safety Program on August 11, 2016 that adopted SMS as the foundation for developing and implementing a Safety Program. FTA is committed to developing, implementing, and consistently improving strategies and processes to ensure that transit achieves the highest practicable level of safety. SMS helps organizations improve upon their safety performance by supporting the institutionalization of beliefs, practices, and procedures for identifying, mitigating, and monitoring safety risks.

There are several components of the national safety program, including the National Public Transportation Safety Plan (NSP), that FTA published to provide guidance on managing safety risks and safety hazards. The Transit Asset Management Plan is one component, which was developed and implemented across the industry in 2018. The subject of this document is the Public Transportation Agency Safety Plan (PTASP) rule, 49 CFR Part 673, and guidance provided by FTA.

Safety is a core business function of all public transportation providers and should be systematically applied to every aspect of service delivery. At the Enid Public Transportation Authority, all levels of management, administration and operations are responsible for the safety of their clientele and themselves. To improve public transportation safety to the highest practicable level in the State of Oklahoma and comply with FTA requirements, the Oklahoma Department of Transportation (ODOT) has developed this Agency Safety Plan (ASP) in collaboration with the Enid Public Transportation Authority.
